RE: 'Montana', Jubilee Drive, Colwall

Dear Mike,

Now that work at Montana is drawing to a close, I wanted to write to congratulate you on producing a cracking building which I am sure will be held up as an example of good design and construction for many years to come.

Please pass on our thanks and congratulations to Russell, David and all of the team on site for a job well done, with professionalism, common sense, hard work and the right amount of (sometimes black) humour. It has been a pleasure to work with all of them and to have their help to overcome the various challenges that the build presented. I know that our client is delighted with the end result.

We will have no hesitation in recommending CJ Bayliss for suitable future contracts and I look forward to working with you again in the future.

Wishing you all the best,

Yours,

Simon Rowe
Director, Harcourt Design Associates Ltd
